2021-22 NTCA NATIONAL WOMENS BOWLING INDIVIDUAL STATISTICAL LEADERS

THRU 3/24/22

PLAYER COMPOSITE PERFORMANCE INDEX (PCPI)

The Player Composite Perfomance Index is a measure that combines the identified categories "percentage of competitors that a bowler has outperformed" within that category. The calculation of the PCPI categories are weighted (SEE FIGURE BELOW CATEGORY). A player that ranks first in a category is given a PCP of 100%. The PCP then is reduced as a % of the number of eligible bowlers for each positional change. The INDEX calculates the percentage of bowlers that a bowler outperforms across the category weightings. It does not consider the magnitude in the actual category performance differences between the athletes. Values of "NR" indicate a player falls short of minimum attempts required to be considered.
